

PE AND SPORT PREMIUM SPENDING 2022-23 (Value of Grant £16,680)

The premium must be used to fund additional and sustainable improvements to the provision of PE and sport, for the benefit of primary-aged pupils to encourage the development of healthy, active lifestyles.

The aims are:

- The engagement of all pupils in regular physical activity.
- Raising the profile of PE and sport across the whole school as a tool for whole school improvement.
- Increased confidence, knowledge and skills of all staff in teaching PE and sport.
- Offer all pupils a broader experience of a range of sports and activities. □ Participation in some competitive sport.

Schools with 17 or more eligible pupils receive £16,000 and an additional payment of £10 per pupil. At the beginning of the academic year we had 53 pupils on roll at the primary site and 15 primary aged pupils at the satellite site so the value of our grant is £16,680.

Intention of Spending and Reasons

Many of the pupils at The Link need support with their gross motor skills. The PE and Sports Premium will be used to ensure that these skills are developed in a fun way so that pupils can develop their fitness levels and enjoyment in taking part in physical activities. As a result of the children becoming more active it will help them to regulate their senses and emotions which in turn will enable them to be ready for learning. The improvements will be sustainable through the monitoring of the progress that the children make through our assessment systems and adjustments being made to spending as necessary.

	ACTIVITY	PROPOSED COST	Proposed effect/impact on pupils' PE and sport participation and attainment	UPDATE/SPENT
--	-----------------	----------------------	--	---------------------

1.	Weekly football sessions with Crystal Palace Football Club	£1,170.00	Children will have the opportunity to learn different football skills and take part in games with pupils from different classes.	Three cohorts of pupils enjoyed the weekly sessions developing football, fitness and interaction skills. Spent: £1,170.00
3.	Dance Club – salary for staff assisting with the club	£720	Appropriate level of staffing ensures safe running of the club. The children will learn different dances and socialise with pupils from across the school.	The Dance Club has allowed pupils from different classes to enjoy interacting and exercising together. The Dance teacher connects very well with children who require a child- centred approach. The pupils have grown in confidence during the sessions and all of them were able to perform at the end of year show in front of their parents. Spent: £720
5.	Weekly Yoga sessions	£4,740.00	Children develop strength and flexibility, boosting physical and mental well-being.	The Yoga sessions have helped with the mental wellbeing of pupils through relaxation and breathing exercises. Core stability and flexibility have also improved. Spent: £4,740.00
6.	PE/Sports equipment/resources	£10,050	Children develop physical skills and experience using new equipment and resources.	Equipment has been purchased to help develop levels of fitness as well as emotional regulation. Resources were also purchased for Sports Day.

				<p>Five new trikes were ordered for the playground. They meet the needs of the majority of our pupils, providing exercise and supporting the development of motor and visual spatial skills. They are used at playtime and for PE. A taxi bike was ordered for our older children, to encourage and support the development of play and imaginary skills.</p> <p>Two wheelbarrows encourage movement, as the children can wheel the items to different areas, encouraging the development of motor and visual skills.</p> <p>A new, low basketball hoop was ordered for PE. Many of our younger pupils are just developing throwing skills and need differentiated activities to support success. The low net makes throwing a basketball accessible for all.</p> <p>A new thicker PE mat has enabled our sensory seeking pupils, to climb and jump in a safer environment.</p> <p>New soft play steps were ordered to be used with our existing soft blocks. These support the development of motor skills and balance and add a new, fun element to the soft play circuit.</p>
--	--	--	--	--

				<p>A set of soft building blocks were purchased for our pupils who love to build and construct. As they are large they add a physical element to construction as they will need to be lifted and moved into place. They can also be used in PE with our large soft blocks and stairs.</p> <p>New stepping stones and balance beams were ordered for PE lessons to develop balance skills. The balance beams can be connected in different ways, which encourage our pupils to sequence and plan routes, using their spatial and problem solving skills.</p> <p>A large ladder attachment was ordered for our sensory room. This climbing ladder challenges some of our more physically able students, as it provides movement as they climb. This develops their strength and motor planning as well as provide a high level sensory (proprioceptive) input.</p> <p>Some of the equipment has enabled students to increase their participation in group activities through PE games and challenges that they have set with the equipment. This has seen new friendships</p>
--	--	--	--	---

				build and interpersonal skills develop for students who struggle to maintain friendships. Spent: £5,549.85
	Total	£16,680		Total spent: £12,179.85

Swimming- The pupils in Year 6 are below the national requirement.
